708 Has Local Clinic on Ropes, May Deliver Knockout Tuesday

The Madison County Mental Health (708) Board—which includes members who unsuccessfully fought the mental health tax and who now take a generally negative stand on proposed uses of the tax funds—may take further steps to deliver a "knockout punch" to the Quad-City Mental Health Center tomorrow night.

The Quad-City Center Board has been pleading for \$3,000 a month more than the 708 Board has granted, and must issue 30-day payoff notices June 1 if the county group ignores its plight at a monthly meeting at 7:30 p.m. Tuesday at the Madison County Courthouse.

The 708 Board is headed by J. J. Gramlich of Highland and includes two Quad-Cityans, Edwin F. J. Reiske and Harry R. Johnson.

A 708 Board administrator hired two months ago, David Buchheim of Highland, has been meeting with the Quad-City board and attended its May meeting Thursday night. A psychiatrist, he is a close acquaintance of Gramlich.

Because of his understanding of mental health treatment, the Quad-City board has been trying to persuade Buchheim to give a favorable recommendation on the \$3,000 monthly plan. It is not a net increase, but a restoration of previously slashed funds.

Clinic Okay; Won't Back It
Buchheim told the board he thinks the local clinic is providing badly-needed services efficiently, and that he thinks it is being well administered by William Daumuelier, director.

He declined, however, to promise an affirmative recommendation, describing this as "unrealistic" in view of the attitudes of 708 Board members.

The latter board is appointed by County Board Chairman Harold Landolt, who this spring won re-election as supervisor and to the chairman post.

The local board sought to get Buchheim to back it or to suggest specific procedural improvements. He declined to do either, indicating that he probably could not sway 708 even if he tried.

The 708 board earlier forced the departure of the local clinic director and also has turned against his successor, William Daumuelier, who has been with the Quad-City center three years and the acting director for one year.

Promoted to Director
When his promotion to director was opposed by 708, the county group suggested a three-month wait pending filing of specific objections to him or

pending a 708 nod toward some other applicant.

With the three months expired, Daumuelier was promoted to director Thursday night.

This also may incur the wrath of the 708 Board, which

has garnered a statewide image in mental health circles as an "anti-mental health" board. It previously cited alleged inadequacies here and changes were made.

The Quad-City center spends about \$13,000 a month and the

Infant Fatally Shot In Home Accident Friday

An 8-month-old girl was fatally shot Friday afternoon while her 7-year-old brother was playing with a gun in the family home.

Tammy Renee Graham, daughter of Mr. and Mrs. Raymond E. (Joyce) Graham, 2539 Hodges Ave., was pronounced dead upon arrival at St. Elizabeth Hospital at 12:45 p.m. Friday after she was found lying in bed with a bullet wound to her left chest.

Members of the family said her step-brother, Mark Brian Howell, found a .25 caliber pistol in a dresser drawer and was playing with it when it accidentally discharged, fatally wounding the child who was lying in bed.

Other survivors are two brothers, Randall Ray Graham, 12, and Danny Wade Graham, 11; a step-brother, Richard Allen Howell, nine; a sister, Miss Deborah Kay Graham, seven; a step-sister, Miss April Lynn Howell, 11; and her grandparents, Mr. and Mrs. Tom T.

Funeral arrangements are given in the obituary column.

1896-1971

Workers' Rights Respected; Initial Industries, School System, Church Established

Granite Cityans on Aug. 21-28 will observe the city's 75th anniversary and the 50th anniversary of the park district. This is the ninth in a series on local history.

The last article told of William F. and Frederick G. Niedringhaus acquiring 3,500 acres here in 1892. A city was designed by an engineer, with the plat filed in 1893, and the name of Granite City was chosen.

The Niedringhaus built a three-story frame hotel for construction workers and engaged Philip Lauff of St. Louis to manage it. A post office was opened on May 29, 1893, with Dr. J. S. Chase as postmaster.

In September 1893, James G. McRoberts, superintendent of a steel foundry in East St. Louis, patented the process of casting steel in molds of "green" or undried sand.

Prior to this time, foundrymen had always assumed that steel had to be cast in oven-dried molds. McRoberts proved this notion in a very simple way: he poured steel into green molds and found that the castings were just as good as those made in dry molds.

To exploit the discovery, he formed forces with Edward F. Goltz, who was promoting a company to manufacture a new kind of steel boiler.

The country was in the midst of a depression which dammed the flow of investment capital.

But through George W. Niedringhaus, with whom he attended school, Goltz succeeded in organizing the American Steel Company, incorporated on April 5, 1894.

Rollie Wells was president; Goltz, vice-president and general manager; George W. Niedringhaus and E. C. Dameron,

county government voted \$70,000 for it in the 1971 fiscal year.

Some funds are received from the Illinois Department of Mental Health, which has consistently backed the Quad-City board in the long controversy.

Crash Fatal To Pontoon Beach Man

Michael R. Johnson, 20, of 3013 Gaslight Walk, Pontoon Beach, was fatally injured in a head-on collision north of Route H on Highway 67 in St. Francois County, Mo., Sunday. He was pronounced dead upon arrival at 3 a.m. Sunday at Farmington Community Hospital, Farmington, Mo.

The State Highway Patrol reported Johnson was traveling south on the east shoulder of Highway 67. He apparently pulled into the path of another automobile traveling north, troopers said. The other driver, Richard R. Quiram, 26, of St. Louis, Johnson was not injured.

Johnson was born in St. Louis. He was discharged from the U.S. Army in November, 1970 after serving a three-year enlistment.

Survivors include his parents, Mr. and Mrs. Ralph W. (Helen) Johnson of Granite City and Peppar Bluff, Mo.; two sisters, Mrs. Judy Marie Gordon of Granite City and Mrs. Jane Helton of Quin, Mo.; and his grandmother, Mrs. Eva Black of East St. Louis.

Funeral services will be held at 3 p.m. Wednesday, at the Quin Church of Christ with burial in the cemetery at Quin, Mo.

Ruling Due Today in Levee Runoff Election
A ruling as to whether a special runoff election shall be held June 22 to elect five trustees of the East Side Levee and Sanitary District was scheduled to be delivered in circuit court at Belleville at 2 p.m. today.

Associate Circuit Judge Howard Lee White two weeks ago, denied a plea for an injunction to halt the May 4 special primary election of candidates in the Madison and St. Clair county sectors of the levee district, but withheld a decision on the June 22 runoff balloting.

Venice City Runs Into Moving Auto
A 4-year-old Venice girl was injured when she ran into the side of a moving auto on Douglas Street near Weaver Avenue in Venice at 4:25 p.m. yesterday.

Sonja McHenry, daughter of Mrs. Vivian McHenry, 1017 Douglas St., apparently ran into the left side of the auto of Dr. Lee Williams, St. Louis, which was turning right from Weaver onto Douglas. The child was taken to St. Elizabeth Hospital where she was released after X-rays.

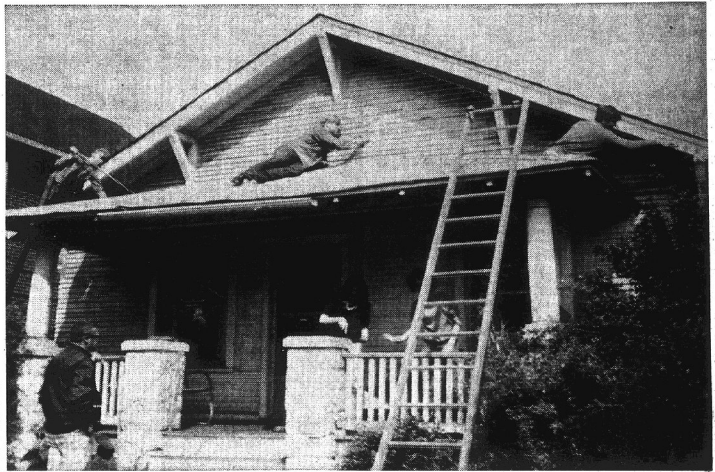

Simultaneously, the Allen Line, an electric street railway, was extended from the Venice Ferry landing to the southern border of the proposed city.

A \$1,000,000 Cross Levee was completed between Mitchell and the Madison Levee. The new embankment stood squarely between Granite City and the Mississippi River.

In the summer, while Kindhook resounded with fusillades of hammering and oaths of sweating mulekniners, the Pullman strike reached a tragic climax in Chicago. Militiamen killed seven strikers on July 7, 1894, and Eugene Debs, strike leader, was arrested.

Several months later, the Illinois Supreme Court decided that the Pullman Company had exceeded its charter in leasing houses to employees. This

Few Tickets Remain for 'Law and Order' Banquet

A few tickets remain for the Granite City Elks first annual "Law and Order Day Banquet," to be held Wednesday evening at the Ross Bowl restaurant.

Featured speaker will be G. Duncan Bauman, publisher of The Globe Democrat. A social hour at 6 p.m. will be followed by dinner at 7 p.m.

The occasion will recognize the efforts of all police officers, with special honors to the banquet arrangement committee, which has been accomplished by a special Illinois flag. Mertz said.

The pennant to be viewed in this area for the first time Wednesday is to be displayed at police headquarters only in the event a law enforcement officer is killed in the line of duty in Illinois.

The task of selecting the area's most noteworthy officer has been accomplished by a committee of Quad-City residents representing facets of the local business, professional and labor committees.

Candidates were nominated for the honor by fellow police officers, civic groups and individual citizens. Hundreds of ballots were received from readers of the Press-Record who clipped the ballots from the newspaper and mailed them to the Elks Club.

An inscribed plaque and other awards will be presented the outstanding law enforcement officer.

Pocket Calculators to Combat Drunk Driving
A pocket-size calculator, designed to educate people to think more about the problem of drinking and driving, will be given to Illinois residents by the Governor's Traffic Safety Coordinating Committee (GTSSC).

The calculator, called the "Drink/Drive Calculator," will be mailed free to all Illinois residents by the GTSSC. The calculator is still in the testing phase.

"The best advice is still 'When you drink, don't drive,'" says Gov. Richard B. Ogilvie, GTSSC chairman. "But despite years of repetition of this phrase, the problem is still with us."

Plan 3-Day Air Purity Hearing For Steel Co.

Granite City Steel Co. will stand trial for alleged air pollution for three days, more or less. Its hearing is set for 10 a.m. Tuesday, May 18, in the City Hall council chambers here, with resumption on Wednesday and Thursday, May 19 and 20.

Judge and jury will be the Illinois Pollution Control Board, in the form of Samuel Lawton Jr., hearing officer. Prosecutor will be the Illinois Environmental Protection Agency.

Both the prosecution and defense plan a number of witnesses, including technical experts, and the hearing will require at least the three days and probably more—possibly even several weeks. It will be up to Lawton to decide what is relevant and what should be excluded.

While a pre-trial agreement is always possible, an EPA spokesman told the Press-Record during the weekend that the hearing is expected to be held.

Dispute Between Agencies
James Kechner of Belleville, chief environmental enforcement officer for southern Illinois, has been critical this spring of David P. Currie, chairman of the Illinois Pollution Control Board.

Kechner said at SIU-SU on Earth Day that Currie's comments are "those of a judge speaking publicly about a case before it is tried. I think you will see a number of appellate court decisions in the near future because industries feel they are not getting a fair and impartial hearing."

Granite City Steel has installed air cleaning devices on basic oxygen furnaces, blast furnaces and blooming and rolling mills in line with rules of the former Illinois Air Pollution Control Board.

It has approved spending large sums on unproved proposals at

a time when it expects breakthroughs in perfecting pollution control technology.

William Blanton, director of the EPA, has called for voluntary compliance but adds that enforcement action will be taken against specific firms to speed compliance.

Four persons were injured when an auto driven by Edward L. Funk, 81, of Batchtown, attempting to turn left from Route 111 onto East Chain of Rocks Road, was struck by a car driven by Earl W. Twente, 20, of South Roxana Sunday morning.

Taken to St. Elizabeth Hospital were the two drivers and their wives, Mrs. Sarah Funk, 81, and Mrs. Linda Twente, 19.

Funk was admitted with a laceration to the right side of the forehead. Twente was treated for injuries to the left thigh, left side of the forehead and right chest.

Candy Love Beads Contain Toxic Metals

A national brand of candy beads suspected as the cause of 15 cases of child poisoning is being distributed in Illinois and other states, the U. S. Food and drug Administration reported last week.

The candy, imported from Hong Kong, contains high levels of toxic cadmium.

The FDA warned against purchase and consumption of "Candy Love Beads" as it contains 2,000 times in excess of safety levels for the heavy metal in pottery.

About 600,000 of the multi-colored bead necklaces have been distributed this year by the Ce De Candy Co. of Union, N. J. They are made by British Crown Colony, Hong Kong, for the New Jersey firm.

The FDA said the poisoning cases showed symptoms of severe stomach pains, vomiting, lethargy and drowsiness. All the victims recovered in a few hours.

MORE ABOUT Calculators

cerning a two- to six-hour period of drinking.

Illinois Limit
In Illinois, one tenth of 1% body alcohol content means that a person is legally "under the influence" of alcohol, Ogilvie said. However, the Drink/Drive Calculator indicates that any person over five hundredths of 1% is in the danger zone and should not drive.

On the back of the calculator is a clear statement of its accuracy and intended use. "This calculator is only a guide and not sufficiently accurate to be considered legal evidence. The figures you calculate are averages."

"Food in the stomach affects the rate of absorption. Medications, health and psychological condition are also influential factors. Remember, the best idea still is 'When you drink, don't drive.'"

"Although both public and private agencies have been campaigning against drunken driving for years, the problem is still with us in catastrophic proportions," Gov. Ogilvie believes. "It is estimated that half of the traffic deaths last year in Illinois involved drinking of alcoholic beverages."

"The real motive in providing Illinois residents with a device such as the calculator is to stimulate their awareness and understanding of the inherent danger of drinking/driving situations."

Bakalis Tightens Budget, Asks Greater School Aid

Superintendent of Public Instruction Michael J. Bakalis submitted to the legislature on Thursday a reduced and "blatantly disciplined" administrative budget, \$164,300 below that of his predecessor.

Bakalis said that if the state's 25 code-type agencies would similarly hold the line against administrative increases, it would free-up an estimated \$275,115,700 "for our most urgent problems, including increased aid to Illinois schools."

He noted further: "In Governor Ogilvie's inaugural address of January 1969, the governor stated: 'In state government itself, self-discipline and innovation must go hand in hand.'"

"In both the spirit of these words, and in deed, I will today submit a bluntly-disciplined administrative budget to the General Assembly. It is a turn-back budget that requests \$1,762,200 for Fiscal Year 1972, a total of \$164,300 below that of the previous year."

Ends Automatic Raises
In referring to his staff budget as an example of the Governor's call for "self-discipline," he noted that the appropriation request "abandons the concept of automatic pay raises for hundreds of dedicated

employees and yet we have done so in favor of selected merit increases if—and only if—such funds are available through normal personnel depletions."

Supt. Bakalis stressed: "This was our most difficult budgetary decision, but we have chosen this course at a time when school districts throughout the state are sharply reducing teacher staffs, curtailing programs, and generally battling to stay afloat in a fiscal maelstrom. This—clearly—is the year of hard decisions for education in Illinois and a rigid self-discipline lies ahead. I have tried to demonstrate by this budget—that such decisions can be made."

The Illinois school chief said that since last January, when his Transition Task Force projected a budget of approximately \$12.7 million dollars, a total of \$1,034,200 has been severed from that original estimate.

In addition to the "freeze" on automatic pay raises, Bakalis said he has:

—Eliminated the position of Deputy Superintendent and its attendant staff salaries.

—Eliminated the assignment of state vehicles to Associate Superintendents as was the policy in the past, and the fleet will be reduced.

—Redirection of space rentals through the General Services Administration for competitive savings.

—Eliminated the direct dealings of vendors with program heads, requiring centralized purchasing on a competitive basis.

—Centralized the approval and scheduling of all educational workshops, conferences and conventions for tighter fiscal control of contractual expenditures.

Consolidates Printing Jobs
—Consolidated all printing and publications operations and eliminated the "publish or perish" policy of reprinting obsolete materials and duplicated documents.

Bakalis commented: "The new budget does not even provide for a contingency fund. If there should be unforeseen emergencies, we will work them out within our budget."

While paring his own administrative budget, Supt. Bakalis said he would continue to press financially hard-pressed school districts throughout the state.

He said: "We must recognize that the

educational crisis has already arrived on the heels of the personal property tax repeal. We therefore call upon local school districts to impose a similar (to OSP) kind of fiscal self-discipline. The alternative is for the entire state educational system to sink perilously close to chaos."

"For that reason, while recommending my own budget, I recommend increases from \$94,008,000 to \$107,355,100 in such basic flat-grant sectors as Special Education for the Handicapped, Adult Education, Public Transportation, School Lunches and such other on-going, day-to-day programs that reach to every school and every student."

The total flat-grant increase of \$12,747,100 includes funds for such new programs as a \$300,000 development effort for education of the deaf—previously non-existent—and the initial steps, and for an organized program to turn OSP over to the State Board of Education within the next 90 days."

Burglars took an automatic pistol and an assortment of frozen foods from the home of Bill Harris, 2223 Edison Ave., about 10 p.m. and 11:20 p.m. Saturday while Harris was visiting neighbors. He told police he left the front door unlocked.

Wallet, \$160 Stolen
Ruy Lowe, 2800 State St., reported at 1 p.m. Sunday that someone raided the screen at his home, climbed through the window and stole a wallet from his trousers containing \$160 to \$180 and papers.

Apartment Burglarized
Cathy Woodward, Apartment 4, 2254 Washington Ave., told police at 12:30 p.m. Sunday that the door of her apartment was forced open and a portable television set, valued at \$170, was taken.

Faces License Charge
Dennis Ishum, 2422 Delmar Ave., was arrested on Cleveland Boulevard at Niedringhaus Avenue at 3:40 a.m. Sunday and charged with having no driver's license. He was held overnight in the Granite City Jail.

Door Kicked Open
The rear door of the apartment of Rose Monroe, 1817 Grand Ave., was kicked in during an apparent burglary. It was reported at 1:35 p.m. Friday. Nothing was disturbed or missing.

Boat Motor Taken
Robert Pieper, 4131 Alton Road, told police at 10:30 a.m. Saturday that an outboard motor had been taken from his boat at the rear of his home.

Steel Imports Set New High During March

Records fell as steel imports rose in March, American Iron and Steel Institute has reported. Government-supplied data reveal that 1,254,000 tons of foreign steel entered the U. S. during the month, a new March record.

As a result the import total for the first three months of 1971 was 3,788,000 tons.

This is the most steel ever imported during the first quarter of any year.

The previous March and first quarter highs were reached in 1968, a year which eventually saw a record 18 million tons of steel imports.

During the first seven months of 1968 as now—consumers were stockpiling steel against the possibility of an industry shutdown when the existing three-year labor contract expired at the end of July.

Far Ahead of 1970
Through March, 1971, steel imports were running nearly 10% ahead of their 1968 pace, more than 65% ahead of 1967.

During the past decade, first quarter steel imports have consistently been lower than second and third quarter imports.

In 1968, for example, imports did not peak until August, when an all-time one-month record 2.1 million tons of foreign steel landed in this country.

Although the past steel imports have receded from inflated hedge buying peaks during labor contract negotiation years, they have never previously returned to their earlier levels.

Instead, AISI noted they established new plateaus from which they grew steadily—until they surged again during the next period of labor negotiations.

According to AISI, imported steel preempted most of the growth in domestic steel demand between 1965 and 1970, a period of substantial economic expansion in the United States.

Although the steel case for some months, sheets, pipe, plate and structural accounted for most of the March steel import product mix.

Hot rolled sheet imports climbed to 160,000 tons during the month. Pipe imports hit 143,000 tons, while the structural import total for March was 123,000 tons, and the plate total stood at 112,000 tons.

Imports of cold rolled sheets, at 184,000 tons, and those of galvanized sheets, at 79,000 tons, were down from their February levels.

Foreign alloy and stainless steel shipments to the U. S. remained substantial during March, reaching 49,000 tons.

While imports soared, exports by U. S. mills continued the slide that began during the middle of last year. They totaled 186,000 tons in March, a drop of 13,000 tons from February.

Fort Hood Assignment For Vietnam Veteran
Army Specialist Five Douglas Wickham, who returned in April from a 12-month tour of duty in Vietnam, has been assigned to a unit at Fort Hood, Tex. He is the husband of the former Miss Brenda Studham and a son of Mr. and Mrs. Joseph Wickham, 2307 Dogwood Drive.

Spec. 5 Wickham spent a 30-day leave at home before departing for Texas with his wife last week.

While in Vietnam, the local newspaperman was a member of the 101st Airborne Division, stationed at Camp Evans. He served as a helicopter mechanic and became a "copter crew member flying missions in the northern I Corps region of Vietnam."

During his service overseas, Spec. 5 Wickham was awarded the Bronze Star Medal.

MORE ABOUT Workers' Rights

sion forced the company to relinquish control of the town of Pullman, which George W. Pullman, inventor of the Pullman Palace Car, had established in 1891 as an "extension of the broadest philanthropy of the working man, based on business principles."

The Pullman Co. owned every house and shop, every stick and stone in the town.

The citizens were merely employees—tenants. The company was their butcher, baker, banker, grocer, landlord and undertaker.

Several writers have inferred that the Pullman debacle led to last-minute changes in the economic blueprints for Granite City.

William F. and Frederick C. Niedringhaus are known to have paid close attention to developments in Pullman. But the burden of evidence indicates that they had no wish to imitate the town or its owner's social philosophy.

The Niedringhaus were enlightened employers. In an era notorious for bloody strike-breaking and "rule by injunction," they respected the rights of the workers and avoided sinister anti-labor practices in common use throughout the country.

While other industrialists were smashing labor organizations and exchanging blacklists, the Niedringhaus deliberately hired members of trade unions on the premise that such workers were likely to be most capable.

Through an arrangement with district school officials and the Immanuel Lutheran congregation, the Niedringhaus acquired the Kindergarten Church and School in 1894.

To assure development of a good school system in the future city, they engaged an experienced educator as superintendent—Prof. L. F. Frohardt of Central Wesleyan College.

Professor Frohardt opened classes in September 1894, with 30 pupils enrolled. The floor above the schoolroom was reserved for use as a community church.

There in November 1894, the Rev. A. H. Miller organized the parent congregation of the present Niedringhaus Memorial Methodist (Episcopal) Church. Next: Industrial activity and municipal incorporation.

Vadalabene Files Bill to Fund SIU-SW Dental School

Senator Sam M. Vadalabene (D-Edwardsville) on Thursday introduced legislation at Springfield appropriating money for construction of the new first phase of the new dental school on the campus of Southern Illinois University-Southwestern.

The \$31 million appropriation follows the recommendation of the Board of Higher Education for funding the project.

"I am very happy to be the principal sponsor of this bill," Senator Vadalabene said. "A downstate dental school has been needed for many years and will add much to the prestige and economic well being of the area."

The federal government will fund through the department of Health, Education and Welfare up to two-thirds of the eligible cost for the new health care facilities. Grant applications are being prepared for submission to HEW in anticipation of the full funding for the project. The local funding must be available before any federal

grants will be awarded.

80-Acre Site

The permanent facility for School of Dental Medicine, Southern Illinois University-Southwestern is to be constructed on an 80-acre site located on the Southwestern campus east of the academic core.

A presentation about the site was made to the SIU Board of Trustees at its last regular meeting. The site is between the fan-shaped parking lots and Illinois Highway 157.

Gene Trotter, associate university architect, told the trustees that this is the area earmarked in the SIU-SW master plan for professional school use.

Four sites were investigated by the project architects Smith, Hinchman & Grylls of Detroit and then by the professional staff of the Associate University Architect's office.

Senator John G. Gilbert (R-Carbondale) is co-sponsor of the bill.

A BREAK FROM NORMAL routine for Emerson School students came when Don Miller, St. Louis traffic safety officer, landed in his traffic helicopter to give a talk on safety, but found youthful interest fixed on the "Bird."

School, 'Copter Landing Brightens Students' Day

Students at Emerson School were happy to break from the normal routine Friday when they were led to the playground to watch the helicopter landing of Don Miller, St. Louis traffic safety officer.

More than 300 anxious faces scanned the skies over the school at 1:58 p.m. Friday, two minutes before the scheduled landing. A wave of excitement spread through the gathering as one voice broke out above all the others, "There he is!"

Bedlam broke loose for the next five minutes as the helicopter circled twice, sounded its siren and landed.

Star of the Show

It was obvious who, or what, was the star of the afternoon. When Miller left the chopper, all eyes remained on the whirling blades of the machine.

"I used to give talks on child safety," Miller said, "but all they wanted to hear about was the helicopter, so that is mostly what I talk about."

"I still talk to them about traffic safety and caution them against child molesters, but I better not forget to talk about the chopper," Miller commented.

After the whirling blades were still, the children were permitted to approach the fast into the passenger compartment as Miller and his pilot answered questions.

Hear Talk

After the eager students had had an opportunity to inspect the aircraft, they gathered in

the gymnasium to hear Miller talk.

He warned against child molesters and cautioned them in traffic safety, but when the question and answer period arrived, all questions were on one subject. At the close of the session they filed into the playground to watch the helicopter and Miller, ascend into the overcast sky and disappear into the horizon.

Court Ruling Upholds Ogilvie Hiring Plan

The Ogilvie Plan to put more blacks into highway construction jobs in Madison-St. Clair counties was upheld Friday by U.S. District Court Judge Omar Posa in Springfield.

The legality of the plan, instituted last summer to curtail a two-year federal freeze on highway construction in the two-county area, was challenged in January in a suit by the Southern Illinois Builders and Contractors associations.

Judge Posa's ruling will mean highway projects in the area may continue only with one black Ogilvie Plan trainee for every four journeymen on the job, as provided by the plan.

While ordering building contractors to comply with the plan's provisions, Judge Posa also ruled the terms of the plan are not inconsistent with previous commitments of three unions named in the suit—Operating Engineers Local 520, Ironworkers Local 392 and Cement Masons Local 90.

Although none of the unions signed the plan, Judge Posa said all have filed consent decrees on hiring practices with the U. S. Justice Department and collective bargaining agreements with building contractors "and are required to cooperate in the implementation of the Metro-East Plan."

A "gentlemen's agreement" reached between all parties to the litigation April 14, pending a ruling by Judge Posa, gave minority group members 20 per cent of the jobs until the court decision was announced and enabled highway construction projects to be resumed.

Boat Motor Stolen

Richard Biggs, 4037 Sara St., told police at 1:15 p.m. Thursday that the outboard motor and gasoline tank had been taken from his boat, at the rear of 4205 Marigold Ave.

Auto Skids in Mishap

An auto driven by Charles A. Westbrook, 2533 Morrison Road, who had made a stop, was struck in the rear by a car driven by Verlis W. Daniels, 206 Wilson Park Lane, who had skidded in the 2800 block of Madison Ave. at 5:15 p.m. Friday.

Truck Backs into Auto

A pickup truck driven by Robert S. Eck, 1400 Eberhart Road, backed into the front of the parked auto of Leonard Taton, 1635 Edison Ave., at 6:10 p.m. Friday at 20th Street and Delmar Avenue. Eck said that due to wetness, his foot slipped off of the clutch.

GC Steel Co. Hikes Prices on Flat-Rolled Steel

Granite City Steel Co. today announced price increases on its sheet and strip products in line with those announced by other flat-rolled steel producers.

John A. Leschen, vice president-sales, said the cost of virtually all the materials and services associated with the manufacture of steel mill products has increased substantially since the last increase in sheet and strip prices.

Effective June 16, there will be price increases on three products:

Hot rolled bands, a form of unprocessed sheet sold in coils, will be increased 42¢, cents per 100 pounds, or \$5.50 a ton. The new base price on hot rolled bands will be \$149.50 a ton.

Hot rolled sheet and strip will be increased 45 cents per 100 pounds, or \$9 a ton. The new base price on hot rolled sheet and strip will be \$159 a ton.

Galvanized sheet will be increased 65 cents per 100 pounds, or \$13 a ton. The new base price on galvanized sheet will be \$200 a ton.

Effective July 1, the price of cold rolled sheet will be increased 60 cents per 100 pounds, or \$12 a ton. The new base price on cold rolled sheet will be \$201 a ton.

Leschen said the one-year price guarantees covering sheet and strip products, which were established at the time of the last price increases, are to expire June 1 and will not be renewed.

Anyone Who handles Food Must Be Careful

Food and drink that are not carefully handled and prepared can be a source of food-borne illness. The bacteria spread easily from hands to food and then multiply quickly. Effective hand washing is considered to be the most important single control in fighting this type of infection.

Never handle food with any sort of open cut or infected finger. Always wash hands after touching nose, face, or hair. It would also be a good idea to keep a good anti-bacterial skin cleanser in the kitchen. We, of course, use one in our pharmacy and can recommend one for your home use.

YOU OR YOUR DOCTOR CAN PHONE US when you need a delivery. We will deliver promptly without extra charge. A great many people rely on us for their health needs. We welcome requests for delivery service and charge accounts.

Ex-GC Man Recovering After One Year in Coma

Berry Dodd, 25, of Largo, Fla., a graduate of Granite City High School, has regained consciousness at the Jefferson Baracks Hospital, St. Louis, where he has been in a coma since he was injured critically in an automobile accident almost a year ago.

Mr. and Mrs. Lindell David, 5180 Nameoki Road, Dodd's grandparents, said Thursday that Berry, whom they reared, had regained consciousness for the first time since the accident May 17, 1970, in Marion, Ill.

Dodd was reared in Granite City and was educated in the schools here, graduating from Granite City High School in 1964.

He joined the U. S. Marine Corps that year and served through 1967. He returned here and went to work for General Steel Industries Inc. where he was employed almost two years. He then went to work for a railroad and was transferred to Largo, Fla. There he left railroading and went to work for Sylvan Abbey Memorial Park in Clearwater, Fla.

He was returning from there to visit for the weekend when he apparently fell asleep at the wheel of his car May 17, 1970. The auto left the road, overturned several times throwing him out of the vehicle and onto the highway. He was taken to Cochran Veterans' Hospital, St. Louis, and later was transferred to Jefferson Baracks where he has remained in a coma for the past year.

Doctors told the David family that if the veteran ever did recover from his coma, he would be unable to talk or recognize them because of brain damage.

"When he regained consciousness he recognized us immediately and started talking to us," Mrs. David said. "It's a miracle and we would like to thank all our friends for their many prayers for him."

Dodd still is paralyzed in his left side but doctors say that too may pass as he recovers.

Watches-Auto Theft

John Essington, 1658 Third Street, Madison, told police that he heard a dog barking in front of his home at 3:50 a.m. Saturday and when he looked out the window he saw a man drive his car away from the home. He chased the auto east on Third Street to McCambridge Avenue but was unsuccessful in his attempts to stop the thief.

Wills Topics of Talk At Optimist Meeting

A discussion of wills was presented by Maurice Dailey, Granite City attorney, at the Thursday luncheon meeting of

the Optimists Club at the YMCA. He discussed the basic principles of a will and the legal implications for people and their heirs who do not have wills at the time of death.

Mr. Dailey outlined requirements for families to follow in

obtaining a release from the attorney general in the event a member of the family does not have a will. He also discussed systems altering liability on inheritance taxes.

Jerry McDonald presided at the meeting in the absence of

Rev. Paul Surbey, president. Gene Sternberg, recently named chairman for a clean-up project for the club, announced he has received 117 barrels to be used throughout the city as trash containers. Arthur Roseman will provide the needed

paint and all members are to meet at the G. H. Sternberg & Co., 1607 Delmar at 10 a.m. Saturday to begin the paint-campaign.

Mrs. Jo Meyer will speak at next week's meeting on electric heat for the home.

Study and Discussion Group Being Formed

The Association for Research and Enlightenment is planning to form and sponsor a study group composed of residents of this area. Purpose of this group, which will meet weekly, is to foster spiritual growth by the application of a group process which was developed by Edgar Cayce. About 14,000 "readings" were given on a wide variety

of topics by Cayce while in a heightened awareness of the effectiveness of the study-discussion method. Cayce study groups have been the most popular in "assisting participants to lead more creative, purposeful, happy lives, a member of the association

said. The groups are non-denominational; no fees, dues or monetary obligations are incurred by participants. An informal organizational meeting is planned in May. Those interested are to call or write Wayne H. Gum, a former Granite Cityan, at 581 Sugar Loaf Road, Collinsville, Ill. 62234 (phone 345-4061) for additional information.

GC Depot Displays, Rides, Entertainment on Saturday

Armed Forces Day will be celebrated Saturday, May 15, at the Granite City Army Depot from 11 a.m. to 2 p.m. The U. S. Army Aviation Systems Command and the U. S. Army Mobility Equipment Command will sponsor displays, rides and entertainment by a college band. The celebration will be highlighted by a paratroop jump from a helicopter. Refreshments will be available. Train, jeep and truck rides will be provided. A special treat for the youngsters will be a jump-tower in which rides simulating an actual parachute jump will be offered. Numerous items will be on display—including trucks, a mobile assault bridge, construction equipment and, of special interest, several Army helicopters. Such aircraft as the OH-6A Cayuse, OH-58A Kiowa, UH-1H Iroquois, CH-47 Chinook, AH-1G Cobra and the giant flying crane CH-54 Tarke will be available for inspection. Additionally, an exhibit of the Apollo 14 will be of interest to young would-be lunar explorers.

Former Resident Earns Army Meritorious Award

Charles Rapp, chief of the Manufacturing Commodity Branch, Directorate for Maintenance, Corpus Christi, Tex., a former Granite Cityan, was presented the Army's second highest civilian award—the Department of the Army Medal for Meritorious Civil Service—in ceremonies last week at Corpus Christi. A retired U. S. Navy Commander, Rapp, is widely known for having been among the original "establishers" of the Army's helicopter overhaul repair center at Corpus Christi. He entered Civil Service in 1959 and was part of the Transportation Materiel Command group in St. Louis, whose mission was to establish ARADMAC. The Corpus Christi facility opened two years later. Presenting the medal on behalf of the Army was Colonel John Lauterbach, project manager for utility aircraft, U. S. Army Aviation Systems Command, St. Louis. ARADMAC's next highest headquarters. Rapp was performing his job as equipment specialist, the former local resident was required to make several trips to Vietnam to inspect damaged equipment, not only at the "support" bases, but in hot spot areas of conflict such as Khe Sanh and the Mekong Delta, Col. Lauterbach noted. During his hours of inspection in Southeast Asia, the bases were many times mortared and rocketed, Rapp recalled, but not one was over-run. He also has made trips to Thailand as part of a special Department of Defense UH-1 management group. According to Colonel Donald H. Jersey, commander of the 1st General Support Group (AM&S) in Vietnam to which Rapp was assigned, the ARADMAC Manufacturing Commodity Branch chief is a man who will "go any place any time to get the job done." Born and reared in Granite City, he served with the U. S. Navy for 20 years, retiring in 1959. He is married to the former Betty Wood. The couple has three children, Charles, 20, Betty Ann, 17 and Eileen, 16. Rapp's sister, Mrs. Eileen Melkamp, resides at 2429 Lynch Ave. and a brother, William Rapp, lives in Belleville. The award winner also received a Presidential Citation from President Lyndon Johnson several years ago for outstanding service.

Rains, Belshe Form Top Battery in 8-0 Cougar Victory

Don Rains and Roger Belshe of Granite City earned their way to the top battery post for Southern Illinois' Southwest baseball Cougars following a busy weekend schedule of five games.

Rains hurled an 8-0 shutout against MacMurray College in a home game yesterday, with Belshe working behind the plate. It gave him a 5-2 record for the season. Belshe doubled home a run.

The Cougars split a double-header with MacMurray's Highlanders, losing the opener 6-4. Rains gave up three hits and fanned six batters, while teammate Don Cole gave him a comfortable cushion by driving in four runs with a triple and a man-on-homer. The Cougars collected 14 safeties in extending their season's record to 19-9.

The Cougars were held to three hits in the first game as the Highlanders hit safety seven times against three hurlers, scoring their runs in the first three frames.

SIU-SW also split a pair in a road trip with Arkansas State Friday, losing the opener 3-2 and taking the nightcap 5-1, after dropping a fiasco at Union College at Jackson, Tenn. Thursday by a 17-3 score.

Cougar officials commented that both field and personal accommodations were less than desirable. The local team was

outhit 15 to 13 in that game. Ron Middleton went the distance on the mound for the Cougars to gain the victory over Arkansas State as Belshe, John "Champ" Summers and Jerry Pilcher singled in an extra inning.

Arkansas won the first game as Rains came in to hurl the bottom of the seventh inning and forced in a tying run by hitting a batter in the back. He soon scored on a single.

The Cougars will play another doubleheader at Greenville College on Wednesday and will close their regular season Sunday in a home game against St. Louis University.

State to Stock Private Ponds, Lakes

The Illinois Department of Conservation is now taking applications for fall fish stocking, according to Al Lopinot, chief fishery biologist for the division of fisheries.

"The primary reason we offer fingerlings to private landowners is that 96% of Illinois impoundments are privately owned. Last year about 21% of our licensed anglers fished private areas."

To be eligible for the fish, an impoundment must be at least one-half acre in size and have a maximum depth of from seven to ten feet, depending upon the part of the state in which it is located. There can be no fish in the pond at the time of stocking.

Each year the division's hatcheries turn out about 600,000 fingerlings for stocking purposes, Lopinot said. About one-third of the fish—mostly largemouth bass and bluegill—are released in private areas. Last year 560 of these areas were stocked.

The division is using a new stocking ratio this year. For each surface acre of an impoundment, the state will release 100 largemouth bass and 1,000 bluegill of fingerling size. This should provide large bluegill in a shorter time, reduce the size of the first several spawns, and therefore produce better fishing, Lopinot said.

"Pond owners shouldn't remove more than one-fourth of each species annually during the first four years after stocking," he warned. "Doing so

could seriously reduce the fish population and result in poor fishing in a very short time." Applications for fish stocking may be obtained from the Division of Fisheries, Illinois Department of Conservation, 400 S. Spring St., Springfield, Ill. 62706.

Hungry Vandals Break Into Dunbar Annex

Vandals must have gotten hungry during a break-in at the Dunbar School Annex this week-end as egg shells and uncleaned cooking utensils in the school kitchen indicated they cooked and ate several eggs while in the building.

Entry was gained by breaking a hole in the wall near the back door. Once inside, the vandals broke two doors and ransacked a desk in the music room.

Doors to the kitchen and music room apparently were broken with a hammer which was found near the kitchen. A pair of eyeglasses in the music room also was shattered.

A janitor noticed the broken doors and called police at 5:30 p.m. yesterday.

Theft from Garage
William Birtley, 2755 Washington Ave., reported at 10:50 a.m. Sunday that during the last week someone entered his garage and stole the carburetor from his car, a \$110 stereo and 12 tapes valued at \$6 each.

GC District Baseball Meet Opens Today at Wilson Park

The Granite City District High School Baseball Tournament begins at 4 p.m. today at Wilson Park where Madison's Trojans will face Collinsville's Kahoks.

Collinsville, under the direction of Coach Terry Smith, has an overall record of 5-12 and a Southwestern Conference record of 3-9.

Pitching for the Kahoks will be Terry Jensen, who has been nursing a pulled muscle, and is 1-4, or Rick Hall, also 1-4.

Collinsville has two big guns at bat as first baseman George McKinnon who also can pitch and play the outfield, is hitting .380 and Bob Bone, shortstop, who has a .360 average.

On second base for the Kahoks will be Donnie Huddleston. His twin brother David will play at third.

Catching will be Dean Van Dyke, and in the outfield Collinsville will have Brad Brunken in right, Rick Knorr or John Lozier in left and Bill

Thrope in center. Courtney Prothro will hurt for the Trojans. MHS is winless this season.

Behind the plate will be Diametris Compton. Going around the diamond for the Trojans will be Wayne Welborn, first base; Carl Turner, second; Carl Fonville, shortstop, and Bert Thompson, third.

The MHS outfield has Don Jack in right, Austin Lewis in center and Jon Gardner in left. The winner of tonight's game will play the winner of the Granite City vs. Edwardsville set Tuesday in Wednesday's finale.

The local Warriors have defeated Edwardsville twice this season, 3-2 and 12-4.

On the mound for the Tigers will be Rick Hofeditz, 2-5. Coach Gale Garbe was unsure of his starter, but it should be Vic Reznack, Ned Tapp or John Stanton on the firing line.

Edwardsville's Dave Schoenleber, hitting .369 is the only player over .300. But Jeff Krumeich, first baseman, is .270 and recently has been hot at the plate. He was four-for-four Thursday against O'Fallon.

Catching for the Tigers will be Ken Schaake who hit a four-bagger against O'Fallon. The EHS infield will see Tim Kolback at second, Dave Schack in the hot box on third, Paul King will be in right field and Martin Kottwitz in left.

GCIS will have Tim Lyster behind the plate, Mike DeRuntz at first, Don Harris second, James Forrester shortstop, Steve Burdge on third, Bill Parks in left field, Steve Arbeiter in center and Jack Scarborough in right.

They didn't seem to mind when told that the overhead grip they were using was wrong. The girls wouldn't listen to remarks that their strokes look like they were

Interviews Open for Upward Bound Program

Members of the Upward Bound Program staff on the Southern Illinois University-Southwestern will begin interviewing Madison and St. Clair County students from low-income families today through June 21 for the summer program.

Elven Davis, director of the program, said the summer component will recruit 50 students who have completed the 10th or 11th grades and are having difficulty adjusting to the normal school curriculum and social environment.

He said the major requirement for entering the program is financial need, but the recommendations of their present teachers, counselors and social agencies that the student may be accepted with acceptance a large part toward their acceptance in the Upward Bound Program.

Davis said that the course work will include the arts and sciences with field trips and cultural experiences serving as motivating factors which help to broaden the student's horizons.

Students who are interested in the Upward Bound Program should contact their school principals or counselors for applications, or contact Mrs. Barbara Mells at Southern Illinois University-Southwestern.

Scouts to Take Annual Lewis-Clark Hike

Boy Scout and Girl Scout Troops and Patrols will stage campfire-style skits to entertain hikers during the registration hours for the third annual "Lewis and Clark Pilgrimage" Saturday, according to Floyd Jordan, chairman trail secretary. Other entertainment will be furnished by Explorer Post 6 Indian dancers led by Don Beck.

Registration will be taken from 12:30 to 1:30 p.m. at the starting point of the day's activities at the ship-to-shore radio station, north of I-270 Chain of Rocks canal bridge and east of the Chain of Rocks canal.

Jordan will lead the scouts in the pledge of allegiance, followed by the hike which will be approximately 3 miles to Lewis and Clark State Park, arriving there at 2:30 p.m.

A guest speaker will relate the history of the Lewis and Clark expedition and significance to the country of the 167th anniversary of the Lewis and Clark expedition. After the talk the scouts will leave at 3:30 p.m. for the hike back to the starting point.

This will be the first year for both the Boy Scouts and Girl Scouts, Cub Scouts and Brownies to participate in the hike as a joint venture. Last year separate hikes were made by 3811 girls and 301 boys.

Participants are to supply their own drinking water and may bring a picnic lunch although food and soft drinks will be sold at both the starting point and program area.

The trail secretary announced parking facilities will be located at the starting point with guides to assist.

Leaders will be responsible for registering their entire units and will receive a souvenir streamer for each unit flag pole.

Write a Letter Now; Rates Go Up Sunday

If you owe somebody a letter, write it and mail it before Sunday, if you want to send it at the present low cost.

Starting Sunday postage rates are going up to eight cents for letters mailed for regular delivery and to 11 cents via airmail. The increases are expected to go into effect despite a suit filed in U. S. District Court, Washington, D. C., which seeks an injunction to halt the rate hike until the Postal Rate Commission acts on a permanent \$1.45-billion-a-year revenue proposal.

Postal authorities express confidence the ruling, expected early this week, will not block the temporary rate increases. It was learned that stamps reflecting the higher, temporary rates have already gone on sale at post offices.

Penny postcards, which have cost a nickel for several years, will go to six cents and all second- and third-class rates, plus some fourth-class mailings will increase from 10 to 20 per cent under the temporary increase. Special delivery and registered mail costs also will go up May 16.

A group of mail users, led by magazine and newspaper publishers, have challenged the right of Postmaster General Winton M. Blount and the nine-member Postal Board of Directors to authorize increases prior to the rate commission holding hearings on the proposal.

Hearings are scheduled to begin next Monday in Washington. But, write your letter anyway. It looks like a losing cause.

Mrs. Gladys Pape Honored for 36 Years as School Teacher

TRAVELERS ABROAD TO WISCONSIN EXPERIENCES

Mr. and Mrs. Harry R. Johnson of Madison will give an illustrated lecture on "Experiences in an Indian Reservation in Wisconsin" at the dinner meeting of the Travelers Abroad Sunday. A family style dinner will be served at 6:30 p.m. at the Rose Bowl.

Reservations may be made either by mail or phone with Alfred E. Krumsiek, 2315 State St., phone 877-0415.

This week's program will conclude regular meetings for Travelers Abroad until September, but a pot-luck supper in the home of Col. and Mrs. Charles B. Schweitzer of Glen Carbon is planned for later this month.

A retirement and teachers appreciation dinner was given Thursday evening at the Rose Bowl by the Niedringhaus PTA.

After the dinner Ray L. Edwards, master of ceremonies, introduced B. J. Davis, superintendent of Community Unit School District 9, and Mrs. Davis, and a certificate of appreciation was presented to Mrs. Alfred (Gladys) Pape for her 36 years service to Granite City school children.

She is retiring at the end of the present school term after 36 years in the teaching profession and dedication to education in the Granite City and Edwardsville areas.

In addition to the certificate Mrs. Pape also was presented

Seated on right is Mrs. Pape's husband, Alfred Pape.

Smoking by Mothers Is Described as High Risk

Women protect more than just their own heart's and health when they give up cigarettes, the Illinois Heart Association said today.

Citing a major study in Great Britain, the Association said there is new evidence that mothers who smoke face a significantly greater risk of stillbirth, or death of babies shortly after birth, than do nonsmoking mothers.

The study revealed that smoking during pregnancy can harm the fetus by exerting a retarding influence on its growth.

NAVY MOTHERS PLAN JUNE EVENTS

Quid City Navy Mothers 830 met Thursday evening with Commander Nellie Dix in charge.

Twenty-one were present at the meeting held at the VFW Hall, including two guests, Mrs. Louise Miller and Miss Margaret Clark.

The group voted to donate food for one day at the Easter Seal Day Camp to be held in June, and to take part in the Shrine Circus parade, also in June.

The mystery package was won by Mrs. Frances Westbrook and other special awards went to Mrs. Harriet Evans and Bill Morris. The next social meeting will be held May 20.

ST. JOHN GUILD HOSTS ST. PETER UNIT

The Afternoon Guild of St. John United Church of Christ on Nameoki Road was hostess to the Afternoon Guild of St. Peter Church Thursday.

A 12:30 luncheon was served to 86 members of the two groups and a "school picnic" theme was carried out in the appointments.

Mrs. Ethel Holtzschner and Mrs. Mary Willard were co-chairmen of the entertainment and decorating committees, and Mrs. Marie Widdows served as luncheon chairman.

The program for the afternoon consisted of appropriate songs and poems by several of the members, and a guest, Mrs. Marie Gordon, reviewed the book "How to Talk With Practically Anyone, About Practically Anything."

The June meeting will begin at 9:30 a.m.

Guests at the Thursday meeting, beside Mrs. Gordon, were Sandra Dawson and Janet Relleke, and 36 members of St. Peter Guild.

In another test of more than 2,000 mothers during a one-year period in the state of Washington, there was a higher incidence of miscarriages, stillbirths, newborn deaths and premature labor among women who smoked than among non-smokers.

Dr. Jesse L. Steinfeld, Surgeon General of the U. S. Public Health Service, reports that women have not been giving up the cigarette habit in as great numbers as have men.

He also has cited evidence that women have more trouble quitting than do men. The relapse rate of women who go back to tobacco is 38% higher than that of men.

In the past four years alone, about 10 million Americans have given up cigarettes; but women account for only 300,000 of this total. It is additionally estimated that the number of women in this country who presently do smoke cigarettes is about 29 million.

The 10 million who have been able to quit stand as proof, the Association spokesmen said, that the effort is not as difficult as some make it sound. It can be made easier if done in a group with friends, or with the help of such organizations as the Heart Association.

Among the materials on smoking and health available are "Cigarette Quiz," "What Everyone Should Know About Smoking and Heart Disease" and "How to Stop Smoking."

The latter can be used along with five half-hour films on smoking withdrawal, which can be made available for group viewing.

The Association will not only help people give up smoking, but help them to understand and to change other habits to lower the risk of heart disease. Risk factors include high blood pressure, a diet high in animal fats and cholesterol, lack of regular exercise, excess weight and the influence of diseases such as diabetes.

The mother-daughter banquet of the Ruth Class of First Baptist Church was held there Thursday evening.

Girl Scout Honored at Mother-Daughter Dinner

A mother-daughter banquet was held last week at St. Joseph's Church for the Neighborhood Girl Scouts, with approximately 225 scouts and guests attending. The hall was decorated in the scouting colors of green and yellow.

Streamers were used along with hanging baskets filled with daisies. Dolls dressed as the three levels of scouting in the neighborhood, Brownie, Junior and Cadette, completed the table appointments. At each setting were soup, pencils tied with ribbons and daisies.

Mrs. Doris Wood, chairman, gave the welcome and a special award was presented to a Brownie, Anna Hambrick of Troop 331, led by Mrs. Dorothy Foster. Anna, the daughter of Mr. and Mrs. Harry Hambrick, Granite City Army Depot, received a plaque and charm for living up to the scout promise. A family which was ready to move had its belongings packed on a van for shipping when a fire broke out and destroyed their little girls toys along with other belongings. The girl was a friend of Anna.

Unknown to her parents, Anna collected many of her own toys, including several of her favorites, and gave them to her friend.

The Eagles provided entertainment and led a sing-along. Mrs. Marge Hall and Mrs. Delores Klesh, two members of the band, invited four scouts to assist with a song and dance number.

The stage area was decorated with a white lattice backdrop entwined with white and yellow daisies.

Mrs. Wood announced that all reservations for a trip to Six Flags on June 8 must be turned in to her by May 21.

A leader's dinner will be held May 12 at Noah's Ark in St. Charles, Mo.; the leaders will assemble at St. Joseph's promptly at 6 p.m.

Cristine Bishop Becomes Bride of Gary E. Eads

St. Margaret Mary Catholic Church was the scene of the wedding Friday evening of Miss Cristine Bishop and Gary E. Eads.

The bride's parents are Mr. and Mrs. Robert J. Bishop, 88 Shirwin Drive, Mr. and Mrs. Walter Baumberger, 2415 Pine St. Lighted candles illuminated the aisle and white satin bows marked the family pews for the Nuptial Mass.

The Rev. Virgil Mank of Charleston, Ill. formerly of the Granite City, officiated at the 7 o'clock ceremony before the altar adorned with arrangements of white flowers and greenery.

Music for the service was provided by Miss Letta Marmon, vocalist, accompanied at the organ by Miss Sandra Dillard. The songs were "Twelve of Never," "The Theme from 'Love Story,'" and "Ave Maria."

Mr. Bishop gave his daughter in marriage. She was lovely in a gown of candlelight silk organza and Alencon lace. It was designed with a natural waist line, a high collar and bishop sleeves. The lace was used in a vertical trim on the train, and an elbow-length mantilla veil of lace was attached to a bonnet headpiece.

The bride carried a cascade bouquet of white carnations and ivory centered with an orchid corsage.

Mrs. Cara Ahlbers, matron of honor, and five bridesmaids, Miss Barbara Bishop, the bride's sister, Miss Marion Young, Mrs. Diane Heath, Mrs. Becky DeRuiter and Mrs. Ann Tanner preceded the bride and her father to the altar. They were dressed alike in

past formal of silk organza with an overlay of radiant blue and lilac floral print with lilac velvet waist bands, high necks, long ruffled sleeves and matching floral print bonnets with blusher veils.

Their flowers were old fashioned nosegays of blue carnations and lemon leaf foliage tied with ribbons to match the gowns.

Little Susie Eads, a niece of the bridegroom, flower girl, wore a soft blue floor-length dress with lilac trim on the sleeves and the skirt.

She carried a basket of petals. James Eads and Paul Eads, nephews of the bridegroom, served as ring bearers.

James Tanner was best man for his cousin, and Paul Eads and Ron Eads, brothers of the bridegroom, Philip Heath, Darrell Jarman, Gary McIlroy, James Parry, Cray Cooper from "Love Story," and "Ave Maria."

For the daughter's wedding Mrs. Bishop chose an aqua knit jacket dress with seed pearl trim and white accessories.

The bridegroom's mother was in a mint green silk shantung dress, trimmed with lace, and green accessories. Both wore cymbidium orchid corsages.

The wedding reception was held at the Elk's Club and the bride and groom were the honeymoon in the Missouri Ozarks.

They will reside in Granite City where the bridegroom is employed as an advertising salesman for the Press-Record. He attended Belleville Junior College and is now a student at SIU-SW.

The former Miss Bishop holds a secretarial position with McDonnell-Douglas Corp., in St. Louis. Both young people

MRS. GARY E. EADS, a bride of Friday. The former Cristine Bishop, she was married in a candlelight ceremony at St. Margaret Mary Catholic Church.

are graduates of the Granite City High School.

Miss Marilyn Mang was in charge of the guest book at the reception.

Out-of-town guests here for the wedding and reception were Mr. and Mrs. James Bishop and son, Gary, and Mr. and Mrs. William Bishop of Granddale, Wis., Mr. and Mrs. Ronald Eads and family of Madison, Wis., Mr. and Mrs. Donald Muskopf, Seattle, Wash., Mr. and Mrs. Asa Butler of Fresno, Calif., and Mr. and Mrs. Richard Lambert of Boynton, Fla.

The rehearsal dinner was given Thursday evening by the bridegroom's parents at St. Margaret Mary Church.

Couple Exchange Vows At St. Mary's Church

Miss Mary Beth Sabol, daughter of Mr. and Mrs. Andrew P. Sabol, 1014 Alton Ave., Madison, and David McClelland, son of Mrs. Lucille McClelland, 608 McCambridge Ave., and Paul McClelland of Joliet, Ill., were united in marriage May 1 at St. Mary Catholic Church in Madison.

The Rev. Conrad Motola officiated at the 11 o'clock ceremony.

Given in marriage by her father, the former Miss Sabol chose a satin-taffeta gown fashioned with an A-line skirt, fingertip sleeves and a fitted bodice covered with lace and seed pearls. Seed pearl appliques were repeated around the hemline of the full length skirt. The bride's veil was long and gathered into a white satin taffeta bow. Matching motifs of lace were sprinkled along the length of the gown and veil.

Mrs. Jo Ann Nizinski was matron of honor with Mrs. Beresley, Mrs. Christine Green, Mrs. Chris Harper and Miss Debbie Trotts serving as bridesmaids.

The attendants were identical gowns of navy nylon over taffeta, featuring snug bodices and high necklines outlined with lace. Matching lace detailed the full sleeves, gathered tight at the wrists, and the full length skirts were edged with pink grosgrain ribbon. Ribbons also encircled the waistline. Large white picture hats, with pink streamers complemented their gowns and their flowers were arrangements of pink carnations.

Darrell Marcum served the groom as best man with John Carlson, John Cass, Howard Green and Kenneth Sabol as groomsmen and Richard Wall and Gary Wasylak ushers.

The bride's mother was attired in an orchid knit dress with white accessories and the groom's mother chose a pale aqua frock with a long nylon jacket and matching hat. Both had orchid corsages.

A reception was held at the American Legion Hall, attended by about 400 guests.

The bride is employed at the Federal Post Building in St. Louis and her husband is with a beer distributing company. Both are graduates of the Madison school system.

The newly-weds are making their home in Venice.

Theme for this hospital week, "Your hospital cares.....but who loves a hospital?".....Answer, we do. You and I. Best wishes from 1st National in Madison.

MRS. ROBERT WHITEHEAD. Her wedding took place Saturday at the Pontoon Church of Christ. She is the former Jean Lancaster.

Miss Jean Lancaster Weds Robert Whitehead

Lighted candles in candelabra, an arch of flowers, together with arrangements of flowers on the altar and white bows on the pews, furnished the setting for the wedding Saturday evening at the Pontoon Beach Church of Christ of Miss Jean Lancaster and Robert L. Whitehead.

The bride is a daughter of Mr. and Mrs. Earl W. Lancaster, 2447 Edison Ave. Mr. Whitehead's parents are Mr. and Mrs. Henry L. Whitehead, 2177 Robert St.

Lowery Sutherland, minister, officiated at the 6 o'clock ceremony and a reception was held at the church directly afterward.

The bride wore a floor-length gown of peau de soie featuring a natural waistline, the bodice accented with Alencon lace and pearls. The sleeves were long and puffed and the bell-shaped skirt swept back to form a brush train. A cluster of Alencon petals edged with pearls secured the bride's veil of illusion and she carried a white Bible topped with carnations.

Miss Diane Mills, honor attendant, and Miss Kathy Whitehead, the bridegroom's sister, Miss Judy Siebert and Miss Pam Bringer, bridesmaids, wore gowns of dotted Swiss. Miss Mills was in red and the bridesmaids chose pink, yellow and purple. The brides were trimmed with velvet ribbon and all wore headpieces of dotted Swiss to match the gowns. Flowers were in the same colors as the gowns.

Nancy Siebert and Wayne Parker served as flower girl and ring bearer, the former dressed like the maid of honor.

Jim Taylor was best man and the corps of groomsmen and ushers consisted of Mike Curtis, Dave Schaus, Denny Hall, a cousin of the bridegroom, Len Lancaster, the bride's brother,

Green Berets to Re-Enact Lewis-Clark Expedition

Lewis and Clark's expedition—which spent the winter of 1805-06 in the Pacific Ocean—will be re-enacted beginning Thursday when 20 volunteer combat veterans of the Army's famed Green Berets leave the St. Louis waterfront bound for Astoria, Ore.

They expect to complete the 3,300-mile journey Sept. 4, covering in 118 days what the original expedition took more than 17 months to do. This is the 16th anniversary of the original expedition. The Special Forces troopers will make the long trip by boat and on foot, with supplies being air-dropped along the way. Two Special Forces "A" teams of 12 men each and a five-man command and control unit will make the trip. As a spokesman at the Special Forces' John F. Kennedy Training Center at Fort Bragg, N.C., put it: "Selecting the personnel to make the trip will be difficult. The whole place volunteered to go, including a number of Lewises and Clarks."

Arrive Thursday
First step in the long journey will be the teams' arrival here Thursday when they will parachute into East Alton's Civic Memorial Airport. The jump is scheduled to be made between 8 a.m. and 9 a.m. Supplies for the first phase of the trip will arrive at the airport later in the day. They will not be air-dropped.

Tornado Season Here; Explain Alert Rules

The peak months of tornadoes are April, May and June, Granite City Civil Defense Director Victor H. Koenig said today as he reminded Quad-Cityans of the basic rules of action when a tornado or alert is sounded.

A three-to-five minute steady blast on the Granite City sirens network tells residents to immediately turn on their radios for information concerning a possible tornado approaching.

The second signal—a three minute wailing or undulating sound—warns the public to take immediate cover inside a shelter, building interior or basement.

The latter signal is used only if information from the National Weather Service indicates a tornado is moving into the Quad-City area or an actual tornado is sighted in the vicinity.

Use of the sirens for severe weather forecasts or tornado watches is not permitted under Illinois law, the director stressed.

Meter Revenue Total Lowest in 6 Years

Parking meter collections in April dropped considerably from the March total, according to Robert Stevens, city clerk, with only \$684 collected last month compared to \$4,370 in March.

The April figure included \$1,755 in meter fees and \$899 in fines, compared to \$2,900 in fees and \$1,470 in fines during March. The meter revenue is the lowest for any one month in recent years. In April 1970, a total of \$3,881 in fees and fines were collected.

Collections for the first four months of this year, totaling \$13,851, were the lowest since 1965 when only \$11,358 was collected through April 30. In the same four months of 1970, a total of \$14,718 was collected.

The meters operated 26 days last month. Daily collections averaged only \$102, the lowest daily average for any one month in recent years. In March the daily average was \$162 and in April 1970, \$141.

\$471,607 in U.S. Bonds Sold in County in April
